COMPARATIVE BIOCHEMISTRY AND PHYSIOLOGY

Aims and scope of Comparative Biochemistry and Physiology

The Journal publishes original articles emphasizing comparative and environmental aspects of the physiology, biochemistry, molecular biology, pharmacology, toxicology and endocrinology of animals. Adaptation and evolution as organizing principles are encouraged. Studies on other organisms will be considered if approached in a comparative context.

Part A. Molecular and Integrative Physiology. This section deals with molecular, cellular, integrative, and ecological physiology. Topics include bioenergetics, circulation, development, excretion, ion regulation, endocrinology, neurobiology, nutrition, respiration, and thermal biology. Study on regulatory mechanisms at any level of organization such as signal transduction and cellular interactions and control of behaviour are encouraged.

Part B. Biochemistry and Molecular Biology. This section covers biochemical and molecular biological aspects of metabolism, enzymology, regulation, nutrition, signal transduction, promoters, gene structure and regulation, metabolite and cell constituents, macromolecular structures, adaptational mechanisms and evolutionary principles.

Part C. Toxicology and Pharmacology. This section is concerned with chemical and drug action at different levels of organization, biotransformation of xenobiotics, mechanisms of toxicity, including reactive oxygen species and carcinogenesis, endocrine disruptors, natural products chemistry, and signal transduction. A molecular approach to these fields is encouraged.

Special Issue: 4th International Symposium on Fish Endocrinology

Introduction

P. Swanson and W.W. Dickhoff

205 Fourth International Symposium on Fish Endocrinology

Symposium articles

T.P. Mommsen

207 Paradigms of growth in fish

L. Alexander, D. Knutson, J.D. Kittilson
and M.A. Sheridan221 Localization of somatostatin mRNAs in the brain and pancreas of rainbow trout (*Oncorhynchus mykiss*)K.M. Kelley, J.T. Haigwood, M. Perez
and M.M. Galima

229 Serum insulin-like growth factor binding proteins (IGFBPs) as markers for anabolic/catabolic condition in fishes

S. Fruchtmann, B. Gift, B. Howes and R. Borski

237 Insulin-like growth factor-I augments prolactin and inhibits growth hormone release through distinct as well as overlapping cellular signaling pathways

T.W. Moon

243 Glucose intolerance in teleost fish: fact or fiction?

I.A. Khan, S. Mathews, K. Okuzawa, H. Kagawa
and P. Thomas

251 Alterations in the GnRH-LH system in relation to gonadal stage and Aroclor 1254 exposure in Atlantic croaker

M. Kishida, M. McLellan, J.A. Miranda,
and G.V. Callard261 Estrogen and xenoestrogens upregulate the brain aromatase isoform (P450aromB) and perturb markers of early development in zebrafish (*Danio rerio*)

A. Moore and N. Lower

269 The impact of two pesticides on olfactory-mediated endocrine function in mature male Atlantic salmon (*Salmo salar* L.) parrN.D. Denslow, H.S. Lee, C.J. Bowman, M.J. Hemmer
and L.C. Folmar

277 Multiple responses in gene expression in fish treated with estrogen

A. Takahashi, Y. Amemiya, M. Nozaki, S.A. Sower
and H. Kawauchi

283 Evolutionary significance of proopiomelanocortin in agnatha and chondrichthyes

S.A. Sower and H. Kawauchi

291 Update: brain and pituitary hormones of lampreys

M. Nozaki, K. Ominato, A. Takahashi, H. Kawauchi
and S.A. Sower

303 Adenohypophyseal cell types in the lamprey pituitary: current state of the art

J.C. Rankin, C.S. Cobb, S.C. Frankling
and J.A. Brown311 Circulating angiotensins in the river lamprey, *Lampetra fluviatilis*, acclimated to fresh-water and seawater: possible involvement in the regulation of drinking

N. Suzuki

319 Calcitonin-like substance in the plasma of Cyclostomata and its putative role

M.K. Trivett, T.I. Walker, J.G. Clement, P.M.W. Ho,
T.J. Martin and J.A. Danks

327 Effects of water temperature and salinity on parathyroid hormone-related protein in the circulation and tissues of elasmobranchs

J.H. Youson and S.A. Sower

337 Theory on the evolutionary history of lamprey metamorphosis: role of and reproductive thyroid axes

R. Sampath Kumar and J.M. Trant

347 Piscine glycoprotein hormone (gonadotropin and thyrotropin) receptors: a review of recent developments

B. Norberg, E.-A. Weltzien, Ø. Karlsten
and J.C. Holm357 Effects of photoperiod on sexual maturation and somatic growth in male Atlantic halibut (*Hippoglossus hippoglossus* L.)

Md. Saydur Rahman, A. Takemura and K. Takano

367 Lunar synchronization of testicular development and steroidogenesis in rabbitfish

D. Alok, R. Sampath Kumar, J.M. Trant
and Y. Zohar

375 Recombinant perciform GnRH-R activates different signaling pathways in fish and mammalian heterologous cell lines

E.A. Dubois, S. Slob, M.A. Zandbergen, J. Peute
and H.J. Th. Goos381 Gonadal steroids and the maturation of the species-specific gonadotropin-releasing hormone system in brain and pituitary of the male African catfish (*Clarias gariepinus*)
